A Leader in Medical Education for three decades.

Founded in 1991, Challenger Corporation (challengercme.com) has been a pioneer and trusted expert in electronic medical education for thirty years.

Challenger serves all levels of practitioner across all major specialties including medical training programs and healthcare groups worldwide.

Prepare for exams or simply refresh knowledge quickly and efficiently with our unique combination of intelligent, adaptive assessment, “weak area” guidance and targeted remediation. You score higher. You learn more.

A photograph of a middle-aged man with grey hair and a beard, wearing a white lab coat over a blue shirt. He is holding a tablet computer with both hands and looking down at the screen. A stethoscope is draped around his neck. The background is blurred, showing what appears to be a clinical setting.
